Our Core Training Modules Get You Ready to Fly

\$250

PART 107 EXAM PREP

This course prepares you to pass the FAA Part 107 drone license exam so you can become a certified drone pilot. It is offered onsite in a 3-day intensive format. Once you have obtained your Part 107 certification you are ready for Ground School.

\$650

GROUND SCHOOL

Focused on beginning flight skills, this course is conducted onsite in four 2-hour segments (8 hours total). Once you have finished Ground School the next step is Flight Line Training.

\$800

FLIGHT LINE TRAINING

This critical aspect of training consists of 3-hour segments onsite (10-20 hours total depending on skill level), providing you the opportunity to gain confidence as a pilot and build the wide variety of advanced flight skills that you need.

Take Your Skills to New Heights
